

been and democratic state tickets, all the candidates thereon being designated as liberal protestants. The local tickets and legislative tickets will be badly scratched. No choice has been expressed between Chapman and Hucker, the democratic and republican congressional nominees respectively.

**SENATOR MULLAN PREDICTS.**  
What He Thinks Will Be the Outcome of the Campaign.

DETROIT, Nov. 3.—"My predictions regarding the outcome of the present campaign," said Chairman McMillan of the republican state committee, "are as follows: 'From the best information that we have, Rich will be elected by from 14,000 to 15,000 plurality. We shall elect a majority of the legislature and retain our United States senator, although that will be close. As for the congressmen, we will make large gains in the number elected. On the general situation we will, I think, carry the state of New York. Cleveland, to win, will have to go to Harlem bridge with at least 50,000 plurality, and he hasn't got the votes to do it. The fight in Indiana will be close. As for New York, although our best advice indicates that we will carry the state by a small plurality. This, of course, will re-elect Harrison, as there is no reasonable doubt but that we will hold all the other northern republican states.'"

**BIG LAKE STEAMER.**  
To Be Built of Steel for Cleveland Owners.

DETROIT, Nov. 3.—Frank E. Kirby of the Detroit Dry Dock company states that his company has just closed a contract for a four-thousand-ton steel steamer, to be built for Capt. E. M. Peck of Detroit. Harvey B. Brown, of Cleveland and others. She will be 342 feet long, 362 feet over all, 42 feet beam and 25 feet deep, with double bottom. The new boat will be a straight back on center line, but with one foot rise aft and two feet rise forward, in order to make her straight to the eye. She will be a duplicate of the Hope and Maryland in machinery. Her triple expansion engine will be 22, 35 and 50 inch by 46-inch stroke, supplied with steam from two cylindrical boilers 14 feet in diameter and 12 feet long, fitted with Howden's forced draft. She will have two pole masts forward without sail. She will carry 300 tons more than the Hope, or 5,000 tons through a 26-foot channel.

**POSSIBLE COLLISION.**  
Believed the Gilder was Sunk by the Ostich.

FRANKFORT, Nov. 3.—A large amount of wreckage from the lost schooner Ostich was thrown up on the Manitowish yesterday, and, as nothing has been heard from the crew, it is believed all have perished. The crew consisted of six men and a woman, but so far their names are not known. The Ostich was a schooner of 273 gross tons and was built at Buffalo in 1856. She was owned by A. Miller of Kenosha, Wis. As the wreckage of the schooner was picked up close to the shore of Manitowish, which is believed to be the Gilder, the opinion prevails here and among the lake saving crew that the Gilder and Ostich were in collision and that the former was struck in such a manner that she sank immediately.

**THEY IGNORE THEM.**  
Democrats Pay No Attention to Wishes of Germans.

JACKSON, Nov. 3.—The German vote has been the cause of much anxiety among the democratic leaders here. For some time they have been aware that something must be done to keep the senators in line and the democratic organized German democratic clubs, but the membership is far from being satisfactory. This year the republicans will get a majority of the German vote. In the past the democrats have always looked upon the Germans as a sure support. At the senatorial convention this fall they asked for Rudolf Wernich, editor of the German American and a leader among them, to be given the nomination. But as usual their wishes were overlooked. This, with the fact that the Germans seem to prefer Harrison to Cleveland, will cause the republicans of this city to support the republican candidates.

**RESCUES OF THE GALE.**  
Wrecked and Damaged Ships Get Out of Refuge.

EAT CITY, Nov. 3.—The schooner Perseus, which stranded on Long Point, near Alpena, is in good condition, and tug will go to her assistance as the weather permits. It is expected that her cargo of stone will be saved.

The gale moderated yesterday and the Myrtle brought in the tow of the Edward Smith. Departed—Roumania, Richmond, Hill, Columbia, Alpena.

The steamer Holland and consort were towed in to Manitowish. It is thought that the Holland's stern bearing is broken and a diver is making an examination.

The schooner reported ashore twelve miles south of Frankfort proves to be the Lincoln Hall. She has a cargo and is well out.

**Says He Shot in Self Defense.**  
DETROIT, Nov. 3.—George Frederick, who shot O. S. Moros Tuesday evening, in an interview, says he shot in self defense—that he thought Moros was coming toward him with a revolver in his hand. Frederick claims they have always regarded him as a trifle unsound mentally.

"The dreadful I had with Moros," he says, "was July 4, when he accused me of insulting his daughter. I was a little full that day, and if his wife and daughter saw me do anything out of the way I did not know it. I was simply attending to a necessity. Since that time Moros has made life a burden to me, and has often threatened to kill me. He would even set other children quarreling with mine. He

threatened that if you're a Swedish man, you can be taken out of it. The chronic skin disease, functional derangements, and painful disorders peculiar to your sex, may be taken away. The red and swelling remedy for them is Dr. Williams' Pink Pills.

It cures, cures, and builds you up. It improves digestion, enriches the blood, drives out acid, induces an easy and refreshing sleep and restores health and strength. For periodic pains, neuralgic infirmities and nervousness, weak back, nervousness, and all kindred ailments, it's a positive specific—one that is guaranteed.

If it fails to give satisfaction, in any case, the money paid will be returned.

A little book on "Women and How Diseases" and to any address, sealed from observation, in receipt of ten cents for postage.

Address: World's Dispensary Medical Association, 601 Main Street, Buffalo, N. Y.

**THE SHOOTING.** The shooting that killed Moros, it is believed, was taken out of it. The chronic skin disease, functional derangements, and painful disorders peculiar to your sex, may be taken away. The red and swelling remedy for them is Dr. Williams' Pink Pills.

## ONE BY THE TIGER

(Continued from First Page.)

so that the state may be taken from the Harrison column, and this may lead to the election of Cleveland by the house of representatives. The circular complains that many people's party are going to vote for Harrison because of the experiences of the Weaver party in the south, and that if all democrats do not vote for Weaver the state will certainly be carried by Harrison. A plea is made for prompt support for the legislative ticket, so as to insure the defeat of Senator Padonick for re-election. The whole letter is couched in the most secretive terms, and is recognized as an attempt by Royd to secure a cabinet position in case of Cleveland's election or the senatorship if it is elected by the house. Its publication has opened the eyes of the populists and will certainly add 5,000 votes to the Harrison plurality in this state.

**WANAMAKER ON THE TARIFF.**  
Some Original Views on Political Questions and Strikes.

INDIANAPOLIS, Nov. 3.—Postmaster General Wanamaker spoke to a crowd of about 8,000 people at Bluffton tonight, the speech being preceded by a big street demonstration. In the course of his speech he gave ideas of his own in regard to some of the leading issues of a democratic. He said that he did not like to go outside of it and sit upon the fence and throw stones at it. Let us stay inside and attack the things we do not like and improve the things that are not perfect.

Mr. Wanamaker said the McKinley bill was not perfect, but he favored a permanent commission to regulate this question. Other things he favored were a board of arbitration to settle strikes, a permanent diplomatic service, a proper monetary basis for silver and immigration restriction.

He concluded by saying that he was well enough and did not want now to be upset by solid south party with its northern confederates.

**Error in the Ballots.**  
CHARLESTON, S. C., Nov. 3.—There is danger of the loss of this state to Cleveland. It was discovered that a serious error had been made in the printing of the democratic electoral tickets in this state which will result in the entire democratic electoral vote being thrown out on account of illegal tickets if the error is not corrected. As it is the tickets have been in the hands of the commissioners of election and the committees for some time and have been partly distributed. Therein lies the danger. It is hard to tell what proportion of the tickets that have been sent out from the state committee headquarters is illegal. Most of those heard from are a sixteenth of an inch long, some to small and some too large. The law says they must be 5 1/2 inches in size. The responsibility for such a serious error seems hard to fix. The tickets went through the hands of the executive committee.

**They Must Enjoy It.**  
DES MOINES, Ia., Nov. 3.—A novel political meeting was held here tonight. An enthusiastic audience packed the Grand opera to listen to democratic speeches by prominent residents of this city, who have all heretofore voted the republican ticket. The speakers were the Hon. J. G. Day, for thirteen years on the supreme bench of Iowa; N. B. Guerry and W. A. Park, leading attorneys of the city; Dr. Woods Hutchinson, a prominent physician, and Frank T. Perry, publisher of the Saturday Review. Judge Day came out for the democratic ticket about six weeks ago, but each of the other speakers publicly announced his change of heart when he prefaced his speech with this statement: "I am proud to be able to say tonight I am a democrat."

**Big Money on Grover.**  
PHILADELPHIA, Nov. 3.—William J. Thompson, president of the South Jersey Jockey club, Gloucester, N. J., today placed \$10,000 on Grover in the hands of William M. Singler as a bet on Cleveland's election against a like amount that Magistrates Durham and Abern will put on Harrison. The magistrates posted \$10,000 forfeit and were given until 2 o'clock tomorrow to raise the remaining \$9,000. Thompson track manager drew another check for \$10,000, which he will give the magistrates a chance to cover, and then offered to bet \$10,000 as follows: Twenty thousand dollars even that Cleveland will be elected, \$10,000 to \$4,000 that Cleveland will carry New York, and \$10,000 even that Cleveland will have 5,000 majority in New Jersey.

**Adial at Chicago.**  
CHICAGO, Nov. 3.—The democrats of Chicago turned out in force at the Auditorium tonight and gave a royal reception to Mr. Cleveland's associate on the national ticket of the party. Half an hour after the doors had been opened the vast interior, seats and standing room alike were filled to overflowing and a throng large enough to fill it over again massed itself around the two sides of the building and clamored vainly for admission. When Mr. Cleveland was presented the audience broke into a frenzy of enthusiasm and it was several minutes before he was permitted to begin his address.

**Hill at Syracuse.**  
SYRACUSE, N. Y., Nov. 3.—Decidedly the largest audience of the season was addressed by Senator David B. Hill at the Albion rink this evening. Nearly 5,000 people crowded into the big hall. The senator's passage through the streets on the way to the rink was like a triumphal march, and as he stepped onto the stage he received a magnificent greeting.

**Gorman's Prediction.**  
NEW YORK, Nov. 3.—Senator Gorman has written a letter to Richard Croker, regretting his inability to speak at Tammany hall tonight, and predicting that Cleveland will carry New York and be elected.

**Democrats Will Not Change.**  
PORTLAND, Ore., Nov. 3.—The democratic state central committee decided today to keep the democratic electoral ticket in the field.

**WORKING THE MARKET.**  
Law Suit Used to Bull Illinois Central Stock.

WASHINGTON, Nov. 3.—The conflicting statements circulated as to the conclusions alleged to have been arrived at by the United States supreme court in the Chicago lake front cases, have given rise to rumors of stock jobbing manipulations which are difficult to clear away. One remarkable feature of the case is that it was sent to New York, converting that the court had decided in favor of the Illinois Central, and one sent to Chicago to the equally positive effect that the court had decided in favor of the city of Chicago and the state of Illinois, and

against the Illinois Central railway, seem each to be vouched for by unimpeachable "confidential" sources of information. And so far as each statement can be traced to a fountain head, both originated in one and the same source. The odds against the suggestion that possibly neither announcement is true and that both may have been brought forward and taken advantage of to bull or bear the market in Illinois Central shares in New York and Chicago.

**FIGURES DON'T LIE.**  
What Protection Has Done for the Workman.

WASHINGTON, D. C., Nov. 3.—The census bureau has grouped the totals of the preliminary bulletins of manufacturing statistics of fifty cities, for comparison of the census years of 1880 and 1890.

The cities are: New York, Chicago, Philadelphia, Brooklyn, St. Louis, Boston, Cincinnati, Baltimore, San Francisco, Cleveland, Buffalo, Milwaukee, Newark, N. J.; Minneapolis, Detroit, Rochester, Providence, Louisville, Lowell, Washington, Worcester, Omaha, Lynn, Lawrence, Cambridge, New Orleans, Indianapolis, Kansas City, St. Paul, Fall River, Troy, Denver, New Haven, Richmond, Va.; Syracuse, Albany, Holyoke, Scranton, Dayton, Bridgeport, Trenton, Allentown, Grand Rapids, Wilmington, Del.; Columbus, Camden, N. J.; Nashville, Memphis and Atlanta.

The total for these fifty cities makes the following showing: Number of establishments in 1890, 143,239; in 1880, 67,294; capital in 1890, \$2,275,696,096; in 1880, \$1,156,318,097; average number of hands in 1890, 2,120,292; in 1880, 1,220,955; total paid in wages in 1890, \$1,166,232,199; in 1880, \$477,863,837; cost of material in 1890, \$2,450,125,756; in 1880, \$1,634,907,274; value of products in 1890, \$4,616,871,797; in 1880, \$2,587,752,986.

Differences in the method of inquiry and the inclusion, in the eleventh census, of certain industries omitted in the tenth census, account in part for the increase shown.

Deducting the total for the industries not reported in 1880 from the total for 1890.

The actual rate of increase and percentage of increase appear as follows: Number of establishments, 60.31, or 90 per cent. Capital, \$123,433,194, or 123.54 per cent. Average number of hands 799,956, or 65.01 per cent. Total amount paid in wages \$684,336,282, or 155.71 per cent. Cost of materials \$781,062,944, or 47.77 per cent. Value of products \$1,981,964,520, or 74.95 per cent.

Considering these cities as a group it appears that the average annual wage per hand increased from \$388 in 1880 to \$555 in 1890 or 43.04 per cent. This is a general average for all classes of employees including officers, firm members, piece workers, etc., and is obtained after deducting the total for the industries not reported in 1880 from the totals for 1890.

**CHURCH EXTENSION.**  
Methodists Convene at Philadelphia to Perfect Plans.

PHILADELPHIA, Nov. 3.—The first day's session of the general committee on church extension of the Methodist Episcopal church began this afternoon in the Wesley hall, No. 1015 Arch street. The meetings of the committee, which are nearly brought together representative men of the denomination and it is composed of the bishops and a delegate from each general conference district, and fourteen members of the board of church extension. The topics to be discussed and the business transacted will be of vital importance to the church. The conference will continue till Saturday. This evening the Laymen's Association tendered a reception to the bishops and members of the conference at the Continental.

**State News in Brief.**  
Rev. D. H. Reiter, formerly of Vicksburg, is the new I. O. O. F. grand lodge chaplain.

Hon. C. P. Black and J. M. Turner addressed a large and enthusiastic democratic meeting at Miller's opera house, Vassar, Tuesday evening.

Matthew J. Rourke, a manufacturer of carriages and cutters at Gagetown, died of bilious fever on Tuesday. He held a \$1,000 life insurance policy in the I. O. O. F.

A farm hand on Ambrose Milham's farm in Pavilion, Kalamazoo county, was badly injured by a bull a few days ago. The bull was killed to prevent him from injuring any one else.

Vicksburg Odd Fellows danced Friday night to the tune of a howling cyclone. The party was a good one, and Emma Rebekeah Lodge No. 13 cleared some money on a twenty-five-cent supper.

A Vicksburg school teacher resigned her position recently. When it was known she did it to get married the school directors were deluged with letters from young ladies who wanted the school.

Contracts have been closed at Chicago by the Ludington Development company, whereby the Holland Manufacturing company, makers of radiators, is secured. Fifty hands will be employed at the start.

While out hunting L. Bates of Burnside accidentally shot himself. The bullet entered just below the heart and the man will die.

At Alton, Mecca county, the democrats became so excited at a pole raising that they gave three cheers for Harrison and Stevenson.

George Brown of Lisbon was arrested on a charge of stealing a trunk and a package of money from the American Express office on May 19.

Marshall sports among themselves by placing rats in a cage with a rattlesnake and watching the deadly effects of the serpent's venom on the poor creatures.

Four barns at Kalamazoo were fired last night, one owned by Downing & Son, being burned with five horses and one mule. The rest of the buildings were saved.

A new trial has been granted in the case of Joseph Brown of Boone, who recently was awarded a verdict for \$1,500 for injuries received by falling through a defective culvert.

When a young man gets up in the morning and calls his father a ———— a fool for giving the cattle a bundle of corn stalks, we think it is time he was churched.—St. Charles Independent.

J. M. Judson was Monday re-elected president of the Farmers' Mutual Insurance company of Lenawee county. The closing year was one continual round of loss for the company, but they are still on top.

There was a very collected office booker election day shake everywhere by the hand, and something kind they say. But what they are safe in office, with a salary and fat, they forget the humble voter. Have you noticed that?—Manitowish Democrat.

## SHE LOSES HER JOB

Stowage Automatic Telephone Doooms the Hello Girl.

EVERY MAN HIS OWN OPERATOR

A Wonderful Invention Which Will Lessen the Cost of 'Phones to \$24 Per Year.

CHICAGO, Nov. 3.—The "hello" girl is in danger. As a matter of fact, it is far more than probable that she will pass into history with coal oil lamps and other uses of the unscientific age. A new invention which has been thoroughly tested and proved successful is at the bottom of all the trouble and it is an invention, by the way, that will reduce the price of telephones to about one-fourth the cost of the present article. The invention is called the Stowage automatic telephone exchange and enables every subscriber to be his own telephone girl.

With it the harassing "hello" becomes a phantom of the dismal past. But this is a detail of the genius. The real value of the invention lies in the exceedingly cheap price at which better telephones can be put in operation. A large party of Chicago business men and electrical professors left this morning on a special train for La Porte, Ind., to see the practical working of the new scheme on a large scale, but many of these gentlemen had already become acquainted with its significance and went mainly to observe the results when applied to a number of instruments.

Phones for \$24 a Year.

"The interesting feature of the new invention," said one of the party today, "is readily seen when it becomes known that the chief of the Bell patents expire next spring, and then telephone service will become a matter for competition. The owners of the Stowage exchange system will be enabled to put their telephones into use after that time, and at the very low rate of \$24 for the year, and these gentlemen are catholic enough to claim that at this figure they can furnish far better and more satisfactory service than is now given and still make good money profits out of their business."

The old telephone company in Chicago makes its old objection, and that is that this system is not applicable to a large system like Chicago, where the number of telephones is very great. But this objection I know to be groundless, inasmuch as I have known the automatic exchange to work as perfectly with a thousand instruments as with 150.

**It Works Automatically.**  
"But there is another reason why the local telephone people are not inclined to enthrone over the invention. They have recently put in a new switchboard that has cost \$250,000. At the same time they made an offer of \$100,000 to the Stowage people for the exclusive right to use the exchange in this city. This offer was refused, so that it is natural that the old company is averse to shoveling \$125,000 out of the back window especially when by so doing the people who use telephones would be greatly benefited thereby. Unquestionably the new system is bound to work reforms in the telephone service all along the line. In the fact that it works automatically all the bother used to telephone connections is made away with absolutely, and in addition to that pleasing fact the price of the service will be made so low that it will be almost as cheap as lake water."

**WATER FAMINE.**  
Pennsylvania Streams Drying Up and People Suffering.

PALMIRA, Pa., Nov. 3.—Owing to the failure of the water supply most of the residents of this place are hauling water. Rain fell in the Lebanon valley, but not in sufficient quantities to do much good. Water is being sold in the streets of this place by the gallon. Some small streams have nearly disappeared.

PORT CLINTON, Pa., Nov. 3.—Rain fell north of Blue mountain this morning for two hours and a half but the weather cleared shortly thereafter. There is a great scarcity of water in this vicinity and throughout Schuylkill county. Most of the wells are dry and the Schuylkill river is reduced to a mere creek.

READING, Pa., Nov. 3.—Rain fell here for several hours this morning, but the sun subsequently broke through the clouds and the temperature was like that of early summer. Nothing but a settled rain of three days will replenish the water supply of this section of the state. Many wells are dry and the farmers continue to suffer great inconvenience.

Thomas Ward, convicted in the circuit court on a charge of picking a woman's pocket at Kalamazoo, August 1, was discharged, the prosecuting attorney not thinking it advisable to pursue the case, which was to be carried to the supreme court.

**Proved to be the Best.**  
Tested and proved by over thirty years' use in all parts of the world, Allcock's Porous Plasters have the indorsement of the highest medical and chemical authorities and millions of grateful patients who have been cured of distressing ailments voluntarily testify to their merits.

Allcock's Porous Plasters are purely vegetable. They are mild but effective, sure and quick in their action, and absolutely harmless.

Beware of imitations, and do not be deceived by misrepresentation. Ask for Allcock's, and let no solicitation or expiation induce you to accept a substitute.
